

Rehabilitation of Muhanga-Kisiizi Kebisoni road

Rukiga District:- Rehabilitation of Muhanga-Kisiizi Kebisoni road

During one of their routine monitoring visits on 4th May 2018, the community based monitors attached to COMEI established that Greystone Investments Ltd was awarded a contract to rehabilitate Muhanga-Kisiizi Kebisoni road, stretching to 61.5 KMs by 7 Metres wide at a cost of UGX. 1,202,656,640 /=-.

The contractor used soil instead of muraam and did not open the drainage channels. This further deteriorated the road, making it very slippery and impassable especially during the rainy season.

Whereas the contract period was 3 months (9th April, 2018 - 9th July, 2018), deadline. Shoddy work was done in a bid to meet the deadline. This was brought to the attention of the Resident District Commissioner (RDC) of Rukiga District Mr Ngabirano Emmanuel by COMEI. The RDC then retrieved the contract which was the basis for corrective action. The contractor was instructed to re-work on the road. UDN facilitated the press/media to provide extensive coverage of the shoddy work done.
